

Spector Pro

Award Winning Internet Monitoring Software

- ❖ Monitor and protect your children on the Internet
- ❖ Detect employee abuse of company PCs
- ❖ See if your family is using the Internet inappropriately
- ❖ Discover who uses your PC while you are away

The Gold Standard in Internet Monitoring and Surveillance Software

Spector Pro is the world's best selling software for monitoring and recording every detail of PC and Internet activity – in your home or in your office.

Selected as the Editors' Choice by the experts at PC Magazine, Spector Pro records every detail of what they do on the computer – their chats, instant messages, emails, the web sites they visit, what they search for, what they do on MySpace, the pictures they post and look at, the keystrokes they type, the programs they run and much more. And because of its advanced surveillance screen snapshot features, you get to see not only WHAT they do, but the EXACT order in which they do it, step by step.

With Spector Pro, you will never doubt who is doing what on the computer.

"Every word they type, every link they click, Spector Pro will be watching."

Spector Pro

Spector Pro is the world's best selling software for monitoring and recording every detail of PC and Internet activity – in your home or in your office.

See EXACTLY What They Do, Step by Step

Spector Pro automatically records every email, chat, web site, keystroke, search and MySpace activity your kids or employees do on the PC and Internet. Plus, the advanced surveillance snapshot feature in Spector Pro allows you to visually review everything they do, in the EXACT order they do it, step by step.

With Spector Pro, you will never doubt who is doing what on the computer.

Internet Access & Chat Blocking

Spector Pro allows you to block access to specific web sites, restrict Chat/Instant Message conversations and control Internet access time on a schedule. Want to block the kids from chatting online after school? Easy. Keep them off MySpace after 9:00 PM? No Problem. Block access to sex.com forever? Done.

Spector Pro at Home

Spector Pro records EVERYTHING your kids do on the Internet. You will always have a COMPLETE VISUAL record of their online activity, giving you peace of mind even for those times when you can't be around to supervise. And, if you believe your family is using the Internet inappropriately, there is no faster or more accurate way to find out than with Spector Pro.

Spector Pro at the Office

The average employee spends more than twelve hours per week online. Are your employees working when they're online or are they playing through chat rooms, on auction sites, checking sports scores and stock quotes, and doing personal email? Are they spreading company confidential information in anonymous email accounts and message boards? Spector Pro records every EXACT DETAIL of their activity, from the moment they log on to the second they log off at the end of the day.

Fast, Friendly Technical Support - 24 Hours a Day, 7 Days a Week

 SpectorSoft's Technical Support staff is available 24 hours a day, 7 days a week to assist you by phone or email.

Automatically Records

Spector Pro

Spector Pro features a streamlined user interface that consists of file folder tabs representing each of the recording tools. Access to your recorded data and settings is just a single click away from anywhere within Spector Pro.

▲ MySpace Activity

Over 100 million people are on MySpace. Is your child one of them? Who are their "friends"? What personal information is posted in their profile? How much time are they spending on MySpace? Find out all this information and more with the MySpace Activity Report in Spector Pro.

▲ Screen Snapshot Playback

Advanced surveillance snapshot recording allows you to see not only what your children and employees do, but the EXACT order in which they do it, step by step. Viewing the screen snapshot playback is like watching a surveillance tape of their online and PC activity. With Spector Pro, you'll never doubt who is doing what on the computer.

▲ Top 10 Activity

Quickly view how they are using the computer with Top 10 Activity Reports. Who are they chatting and emailing most frequently? What are they searching for on the Internet? Which web sites are they visiting the longest? View the details and immediately block activity you decide is inappropriate.

▲ Chat/IM Recording

Spector Pro records both sides of chat conversations and instant messages your kids and employees have on AOL Instant Messenger, ICQ, Yahoo Messenger, Google Chat, MySpace and more. Plus, with Spector Pro's powerful Chat Blocking feature, you can prevent specific people from any further chatting or Instant Messaging with your child or employee.

Spector Pro

Award Winning Internet Monitoring Software

@ Home

"Within 36 hours of using Spector, I had enough evidence to approach the police. The teacher who was in a sexual relationship with our daughter was arrested, sentenced and will have his photograph and address listed on the state's sexual offender web site. None of this would have been possible without evidence obtained using Spector."

*Bob Watkins
Tennessee*

"Your product saved my son's life and turned it around! I will never stop telling others about your product."

*D. Wise
Chicago, Illinois*

"I am critical of everything, but I have NEVER found a program so easy to install, configure and use."

*Fred Levine
Schenectady, New York*

@ Work

"Since the installation of Spector Pro on a number of our computers in the office, Internet abuse and inter-company email gossip has nearly been eliminated."

*Joseph Danenza
Alexander Samuel & Co., Solicitors
London, United Kingdom*

"Spector Pro has been so effective at reducing personal time spent on the computer that I expect an annual cost savings of \$220,000."

*Daniel Anderson
Northern Arizona Orthopaedics
Flagstaff, Arizona*

About SpectorSoft

SpectorSoft develops, markets and supports PC and Internet monitoring and surveillance products for business, education, government and general home users.

Recognizing that corporations, schools and families need to know how people are using their PCs and what they are doing on the Internet, SpectorSoft was founded to provide the first useful and intuitive recording and playback products for Windows and Mac OS based computers.

In addition, our products have received thousands of accolades from the most important group: our customers.

Our company mission is a simple one: to provide truly useful Internet tools for employers, educators, government offices and parents concerned about inappropriate use of the web, to make these tools powerful, yet simple to use, and to provide these tools at an affordable price, backed by top-notch support - 24 hours a day, 7 days a week.

System Requirements

- Windows® XP Home Edition or Professional, Windows Me, Windows 98, Windows 2000, or Windows Vista™ (Official Release)
- 64 MB of memory or more
- 0.5 GB of available hard disk space recommended

Featured In...

"Don McDevitt, a parent in North Wales, Pa., installed Spector Pro and discovered that his teenage son was using marijuana. He also learned that a friend of his teenage daughter was emailing inappropriate photos of herself. He had a talk with his kids and put that kind of behavior to an end."

-The Wall Street Journal

"Spector Pro offers the most powerful assortment of monitoring and reporting tools."
